

© 2016 Fit For Birth

Pre & Post Natal Corrective Exercise Specialist Manual Outline

- 1. Section 1: Birthing in the Modern World (7 pages)**
 - a. The Birth Process Overview (p. 1)
 - b. The Immediate Concern (p. 3)

- 2. Section 2: Benefits of Exercise During Pregnancy (18 pages)**
 - a. Before We Begin: Pregnancy Trimester Terminology (p. 1)
 - b. Wearing the Weight Vest (p. 2)
 - c. Labor & Delivery: Mom's First Marathon! (p. 3)
 - d. Benefits of Exercise During Pregnancy (p.6)
 - i. Benefits for Babies of Exercising Moms (p. 7)
 - ii. Benefits for Exercising Moms (p. 8)
 - e. Breaking the Slippery Slope of C-Section (p.15)
 - i. One: Unfit Mom (p. 15)
 - ii. Two: Hospital Mindset for Drugs (p. 16)
 - iii. Three: Enter "Pit"-ocin (p. 16)
 - iv. Four: "Epidurals Please!" (p. 16)
 - v. Five: Cesarean Section (p. 17)
 - vi. Exercise Can Stop the Cycle (p.17)
 - f. Summary of the Benefits of Exercising through Pregnancy (p.18)

- 3. Section 3: Common Pregnancy Considerations (31 pages)**
 - a. Trimester-by-Trimester Physical Changes (p. 1)
 - b. Hormonal Considerations (p. 3)
 - i. Relaxin (p. 3)
 1. Diastasis Recti (p. 4)
 2. Pelvic Girdle Pain (p. 5)
 - ii. Progesterone (p. 6)
 1. Lying Supine (p. 7)
 - iii. Hormonal Considerations Conclusion (p. 8)
 - c. Cardiorespiratory Considerations (p. 8)
 - i. ACOG Guidelines (p. 8)
 1. ACOG Aerobic Exercise Guidelines During Pregnancy (p. 10)

- ii. Varicose Veins (p. 12)
 - d. Metabolic and Nutritional Considerations (p. 13)
 - i. Temperature (p. 14)
 - ii. Water (p. 15)
 - 1. Water-Baby's Greatest Nutrient (p. 15)
 - iii. Food for Pregnancy
 - 1. So What is the Nutrition Solution? (p. 21)
 - 2. Foods for Pregnancy (p. 23)
 - 3. A Unique Food Pioneer Sheds Lights on Pregnancy Nutrition (p. 26)
 - 4. The Pregnancy Diet that has been with Us since the Dawn of Time (p. 30)
 - e. Section 1, 2, & 3 Summary (p. 31)
- 4. **Section 4: Musculoskeletal and Physiological Considerations** (38 pages)
 - a. The Dawn of Corrective Exercise (p. 1)
 - b. Corrective Exercise 101 (p. 5)
 - i. Misalignment Equals Poor Muscle Activation (p. 5)
 - ii. Acute or Chronic? (p. 6)
 - iii. It's All Brain Signals and Activations (p. 7)
 - iv. Learning to Feel (p. 9)
 - c. Pregnancy Musculoskeletal Changes (p. 10)
 - d. The Diaphragm: Breathing and Stress (p. 12)
 - i. Stress Shuts off the Diaphragm (p. 13)
 - ii. A New Definition of "Good" Stress (p. 14)
 - iii. The Flat-Liners: The Modern Stress Outcome (p. 17)
 - iv. The Stress Connection on Baby's Development (p. 18)
 - v. Diaphragm Increases Nutrients and Decreases Toxins (p. 19)
 - vi. The Starting Point for all Muscle Imbalance: Diaphragm (p. 19)
 - vii. Diaphragm: Critical Link in Pregnancy Discomforts (p. 21)
 - viii. Diaphragm: Critical Link in Labor and Delivery (p. 22)
 - e. What is Correct Breathing During Movement? (p. 22)
 - i. The Valsalva Breath-Lock Compensation (p. 24)
 - f. The Transverse Abdominis (TVA) Muscle (p. 26)
 - i. Nutrition and Stress Components of TVA Dysfunction (p.28)
 - ii. TVA Relations to Valsalva (p. 29)
 - g. The Pelvic Floor Musculature (p. 32)
 - h. Prenatal Section 4 Summary (p. 38)

5. Section 5A: ASSESSMENT: Assessing Prenatal Muscle Balance (14 pages)

- a. Muscle Imbalances Demand Corrective Exercise (p. 1)
 - i. Corrective Exercise is a Natural Alternative (p.2)
 - 1. People Aren't Aware of the Power that Should Exist Within Their Body (p. 3)
- b. Assessments Raise the Bar for the Fitness Professional (p. 4)
- c. The New Paradigm (p. 4)
- d. The "Big Four" (p. 6)
- e. Movement Assessments (p. 7)
- f. Written Assessments (p. 11)

6. Section 5B: ASSESSMENT: Corrective Exercise Coaching Skills (45 pages)

- a. The Assessment Process, In Detail (p. 1)
- b. The Breathing Assessment (p. 2)
 - i. Novice (p. 2)
 - ii. Experienced (p. 3)
- c. The Pelvic Tilt Assessment (p. 5)
 - i. Novice (p. 5)
 - ii. Experienced (p. 6)
- d. Primal Movement Pattern Assessments (p. 9)
- e. The Squat Assessment (p. 11)
 - i. Novice (p. 11)
 - ii. Experienced (p. 14)
- f. The Alternating Lunge Assessment (p. 18)
 - i. Novice (p. 18)
 - ii. Experienced (p. 19)
- g. The Twist Assessment (p. 21)
 - i. Novice (p. 21)
 - ii. Experienced (p. 22)
- h. The Bend Assessment (p. 24)
 - i. Novice (p. 24)
 - ii. Experienced (p. 25)
 - iii. Core Function in a Pregnant Belly? (p. 29)
- i. The Pull Assessment: Two DB Bent Over Row (p. 30)
 - i. Novice (p. 30)
 - Experienced (p. 37)

- j. The Pull Assessment (Alternative): Double-Cable Pull (p. 34)
- k. The Push Assessment: Push Ups (p. 35)
 - i. Novice (p. 35)
 - ii. Experienced (p. 31)
- l. The Push Assessment (Alternative) Double Cable Push (p. 39)
- m. The Single Leg Balance Assessment (Optional) (p. 40)
- n. Complete Movement Assessment Chart (p. 43)
- o. The Cardio Assessment (Optional) (p. 44)
- p. Prenatal Section 5 Summary (p. 45)

7. **Section 6A: Prenatal Program Design** (53 pages)

- a. Program Design Fundamentals (p. 1)
- b. Prenatal Bending and Twisting (p. 4)
- c. Functional Training Versus Machine Training (p. 9)
- d. Choosing Exercise Variables (p. 10)
 - i. Where are the Abs? (p. 13)
 - ii. Selecting Exercises (p. 13)
- e. Traditional Periodization (p. 14)
- f. What About Flexibility? (p. 18)
- g. What About Cardio? (p. 20)
- h. Traditional Cardio May Hinder Energy, Vitality, Sleep, and Immune Systems (p. 23)
- i. Pregnancy Periodization- The Fit For Birth Method (p. 28)
 - i. Pregnancy Periodization Overview (p. 28)
- j. Belly Training™ (p. 30)
 - i. Diaphragmatic Awareness & Activation (p. 31)
 - ii. Pelvic Floor Awareness & Activation (p. 33)
 - iii. Three Kinds of Kegels (p. 33)
 - iv. TVA Awareness & Activation (p. 34)
 - v. Belly Training Wrap Up (p. 36)
- k. Functional Training (p. 38)
 - i. Functional Exercise or Dysfunctional Exercise? (p. 39)
- l. Labor Training™ with Mental Imagery (p. 41)
 - i. The Two Steps of Labor Training™ (p. 41)
 - 1. Contraction-Specific Bursts (p. 41)
 - 2. Mental Imagery Rest Periods (p. 42)
 - a. Example Imagery Topics (p. 42)
 - b. Sport Specific Training (p. 43)
- m. Mental Imagery Training (p. 46)

- n. Mental Imagery for a Natural and Painless Childbirth (p. 47)

8. **Section 6B: Prenatal Program Design** (19 pages)

- a. Prenatal Program Design In Practice (p. 1)
- b. Preventing and Correcting (p. 6)
 - i. Preventing and Correcting Diastasis Recti (p. 6)
 - ii. Preventing and Correcting Diastasis Recti (p. 8)
 - 1. Pelvic Girdle Pain (PGP) & Symphysis Pubis Dysfunction (SPD) (p. 8)
 - 2. Low Back Pain (LBP) & Lumbar Pain (LP) (p. 9)
 - 3. Sacroiliac (SIJ) Dysfunction (p. 11)
 - iii. Minimizing Round Ligament Pain (p. 13)
 - iv. Minimizing Pregnancy Stretch Marks (p. 14)
 - v. Preventing and Correcting Varicose Veins (p. 15)
 - vi. Preventing and Correcting Sciatica (p. 15)
- c. Pregnancy Exercise Restrictions (p. 17)
 - i. Abdominal / Core / Midsection / Belly Training™ (p. 17)
 - ii. Strength Training / Functional Training (p. 17)
 - iii. Power / Agility / Cardio / Labor Training™ (p. 17)
 - iv. Flexibility Training (p. 18)
- d. Section 6 Summary (p. 19)

9. **Section 7: Post Partum in the Modern World** (34 pages)

- a. Delicate Postpartum (p. 1)
 - i. Birth Story (p. 2)
 - ii. Modern Emotions and Postpartum Support (p. 4)
 - iii. Post Natal Exercise Benefits (p. 6)
- b. Endocrine System (p. 7)
 - i. The Rise and Fall of Pregnancy Hormones (p. 7)
 - 1. Progesterone (p. 7)
 - 2. Estrogen (p. 7)
 - 3. Prolactin (p. 8)
 - 4. Oxytocin (p. 8)
 - 5. Cortisol (p. 9)
 - 6. Thyroid Hormones (p. 10)
 - 7. Vasopressin (AVP) (p. 10)
 - 8. Relaxin (p. 11)
 - ii. Postpartum Depression (p. 11)
- c. Musculoskeletal System (p. 14)

- i. Postpartum Posture (p. 14)
 - 1. Postpartum Pelvic Bones and Corrections (p. 14)
 - ii. Diagnosing Diastasis Recti Postpartum (p. 19)
 - d. Inner Unit Rehabilitation (p. 22)
 - i. Exercises for Rehabilitation of the Inner Unit (p. 26)
 - 1. Stage 1: Learn to access the Belly Pump™ -Perform Daily (p. 26)
 - 2. Stage 2: Learn to apply the Core Breathing Belly Pump™ to Core Stabilization Exercises- Perform Daily (p. 27)
 - 3. Stage 3: Learn to apply the Belly Pump™ to All Movements (p. 28)
 - e. Uterus Involution (p. 29)
 - f. Post-Pregnancy Pounds (p. 30)
 - g. Cardiorespiratory System (p. 32)
 - i. Blood Volume (p. 32)
 - ii. Varicose Veins (p. 32)
 - iii. Hydration (p. 33)
 - h. Section 7 Summary (p. 34)
- 10. Section 8: Post Natal Program Design (22 pages)
 - a. Postpartum Dysfunction (p. 1)
 - i. The Modern Postnatal Body (p. 1)
 - ii. Setting the Stage for a Post Partum Nightmare (p. 2)
 - iii. C-Section Clients (p. 4)
 - b. C-Section Clients
 - i. Immediate Post Natal: The First Six Weeks (p. 6)
 - ii. Ongoing Post Natal: After the First Six Weeks Postpartum (p. 9)
 - c. The Fit For Birth Method—Post Natal (p. 10)
 - i. Belly Training™ (p. 10)
 - ii. Functional Training (p. 14)
 - iii. SuperMom Training (optional) (p.15)
 - iv. Imagery/Flexibility Training (p. 15)
 - d. Post Natal Program Design in Practice (p. 17)
 - i. Postnatal Periodization (p. 17)
 - ii. Postnatal Fat Burning (p. 18)
 - iii. Opposite Ends of the Spectrum (p. 18)
 - 1. Mary and Matilde: How Fast To Expect Results (p. 18)
 - e. Five Foundations (p. 20)
 - f. Finding Time and Place in a New Role (p. 21)
 - g. Section 8 Summary (p. 21)
